Injuries:

Division	Category	Case Date	Date Entered	Recordable	Rx	Medical		ESH	
						ODD	LDD	ODD	LDD
AD	FNAL	5/28/2015	5/28/2015	N		0	0	0	0
<p>Medical Comments: Employee was using a screw driver to remove a pressure meter that was inside a chassis. The screwdriver slipped causing the employee to hit his thumb on the side of the chassis, causing a superficial laceration. Area was cleaned and dressed. Follow up if needed.</p> <p>ESH Comments: The employee was attempting to remove a digital pressure meter from a chassis associated with a water pump skid. Typically these small meters are held in place by a clip bracket assembly and can be removed by hand. The employee experienced difficulty removing the meter in this case and used a screwdriver as a lever in an attempt to unseat the meter from the bracket. The screwdriver slipped, causing his thumb to contact the chassis in which the meter was mounted, resulting in the superficial laceration. It was discovered after the incident that this particular meter had been secured with a screw, in addition to the clip bracket; this information will be relayed to others who work on this equipment. First aid treatment only; no limitations.</p>									

Claims Pending:

None

Vehicle Accidents:

None

ORPS/Incidents/Notices of Violations:

None

DART/TRC/First Aid Counts for Employees and Subcontractors
